newsMaster in Public Governance University of Granada - Euro-Arab Foundation

20 Oct 2015

This program, designed to enhance and uplift the academic, social, and policy-related awareness necessary for public administration reform, provides high quality training in the concept of Governance and its applicability in the strategic regions.

[1]

PROGRAM

This program challenges students to use their previously acquired knowledge and to take it forward by combining it with the skills gained by the masters program in order to promote good governance and policy reform in the strategic regions .

ACADEMIC CONTENT

The master program is divided into 12 units and a final research project covering different areas of governance such as institutional reform, regional and global governance, accountability, e-government, public leadership, women empowerment, and security sector reform.
