

DEVELOPING EFFECTIVE SOLUTIONS AGAINST ORGANISED CRIME AND TERRORIST NETWORKS

/ ANALYSE / UNDERSTAND / DEVELOP / SUPPORT / DETECT / COUNTER /

PROJECT BACKGROUND

Organized Crime and Terrorist Networks (OC/TN) are major challenges for the EU. Many different stakeholder groups are involved in creating awareness, preventing, identifying and intervening in case of risk or threat. But in order to develop better strategies and instruments, we still need a deeper understanding of these phenomena.

TAKEDOWN will create new insights on OC and TN by using a multidimensional modelling approach including social, psychological, economic and cultural aspects as well as prevention activities and response approaches.

Based on these insights, practical toolkits as well as an Open Information Hub will be developed for practitioners and the public. A digital Solutions Platform will furthermore aim at increasing the cooperation between law enforcement agencies and security solution developers.

With this multi-level approach, the project will not only enhance the knowledge on OC and TN, but it will also develop digital and non-digital toolkits as well as solutions for more efficient and effective prevention, intervention and response strategies.

PROJECT OBJECTIVES

-  ANALYSE the body of scientific knowledge on organized crime and terrorist networks
-  UNDERSTAND the social, psychological and economic aspects of OC and TN
-  PROVIDE dynamic and multidimensional models as a basis for developing digital and non-digital solutions
-  CREATE toolkits for first line practitioners, law enforcement and policy makers
-  BUILD an intuitive Open Information Hub for practitioners and the public
-  DEVELOP a digital Solutions Platform including selected third party content

TAKEDOWN
Identify . Prevent . Respond
